How to read the Annual Report

What has changed for the 2020 Annual Report?

Improved appearance

The appearance of the Performance Summary has been updated to more clearly represent information and to assist interpretation and comparison of individual school's data with state averages and similar school groups.

School performance data

The Victorian community's experience of COVID-19, including remote and flexible learning, had a significant impact on normal school operations. This impacted the conduct of assessments and surveys. Readers should be aware of this when interpreting the Performance Summary.

For example, in 2020 school-based surveys ran under changed circumstances, and NAPLAN was not conducted. Absence and attendance data may have been influenced by local processes and procedures adopted in response to remote and flexible learning.

Schools should keep this in mind when using this data for planning and evaluation purposes. Those schools who participated in the Student Attitudes to School survey in 2020 should also refer to the advice provided regarding the consistency of their data.

What does the 'About Our School' section refer to?

The About Our School section provides a brief background on the school, an outline of the school's performance over the year and future directions.

The 'School Context' describes the school's vision, values and purpose. Details include the school's geographic location, size and structure, social characteristics, enrolment characteristics and special programs.

The 'Framework for Improving Student Outcomes (FISO)' section includes the improvement initiatives the school has selected and the progress they have made towards achieving them.

What do 'Similar Schools' refer to?

Similar Schools are a group of Victorian government schools with similar characteristics to the school.

This grouping of schools has been created by comparing each school's socio-economic background of students, the number of non-English speaking students and the school's size and location.

What does 'NDP' or 'NDA' mean?

'NDP' refers to no data being published for privacy reasons or where there are insufficient underlying data. For example, very low numbers of participants or characteristics that may lead to identification will result in an 'NDP' label. For the 2020 Student Attitudes to School survey, specifically, the similar school group averages are replaced by 'NDP' where less than 50% of schools in a given similar school group did not participate in the 2020 survey.

'NDA' refers to no data being available. Some schools have no data for particular measures due to low enrolments. There may be no students enrolled in some year levels, so school comparisons are not possible.

Note that new schools only have the latest year of data and no comparative data from previous years. The Department also recognises unique circumstances in Specialist, Select Entry, English Language, Community Schools and schools that changed school type recently, where school-to-school comparisons are not appropriate.

What is the 'Victorian Curriculum'?

The Victorian Curriculum F–10 sets out what every student should learn during his or her first eleven years of schooling. The curriculum is the common set of knowledge and skills required by students for life-long learning, social development and active and informed citizenship.

The Victorian Curriculum is assessed through teacher judgements of student achievement based on classroom learning.

The curriculum has been developed to ensure that school subjects and their achievement standards enable continuous learning for all students, including students with disabilities.

The 'Towards Foundation Level Victorian Curriculum' is integrated directly into the curriculum and is referred to as 'Levels A to D'.

'Levels A to D' may be used for students with a disability or students who may have additional learning needs. These levels are not associated with any set age or year level that links chronological age to cognitive progress (i.e. there is no age expected standard of achievement for 'Levels A to D').

Due to the high standards, SYPS focuses on ‘Building Practice Excellence’ as an outcome of the report to target the improvement in learning growth for each student.

One of the highlights of South Yarra Primary is the professional learning program. The School Improvement Team, individual teachers and Education Consultants have facilitated a range of high quality, needs focussed professional learning for our teachers and parents that align with our whole school goals. Teachers actively seek new learning to improve their skills to benefit their students. Action Teams, Year Level meetings, graduate mentoring, team teaching, Learning Specialists and consultants modelling in classrooms and assisting with planning.

Achievement

Student achievement in English in 2020, based on assessment against the Victorian Curriculum, continued to be above the state median with 98.1% of students achieving at C or above. Student achievement in Mathematics in 2020, based on assessment against the Victorian Curriculum, continued to be above the state median with 99.4 of students achieving at C or above.

Our school results are well above the results for similar government and non-government primary schools in our network.

To maintain high levels of student learning, teachers participate in ongoing, targeted professional development in situ and online. Teachers work collaboratively in year level teams to plan 'support and enrichment' programs using fluid groupings in response to differing student needs based on a range of assessment strategies. Moderation of student work samples continued within and across year levels and network.

Engagement

South Yarra Primary School continues to deliver the prescribed curriculum using innovative pedagogical practices that reflect child centred, personalised learning and the needs of 21st century learners.

Student voice is a strength within our school, enabled through Junior School Council for Prep to Year 6 students, along with extensive opportunities for student leadership roles. Class meetings and a range of classroom responsibilities empower students and engage them in the school and community.

Achievements are celebrated through classroom affirmations, award presentations at assemblies and in the school newsletter.
